

ENVIRONMENTAL POLICY

Pozztech Engineering is a small sized engineering company based in Western Australia.

At Pozztech Engineering we have established an Environmental Management System (EMS) in alignment with ISO 14001:2015.

We are committed to learning from industry best practice and to continually improve our existing processes to enhance our environmental performance.

Our goal is to prevent pollution and ensure we understand and comply with relevant legislation and statutory obligations to protect the environment.

Pozztech Engineering is committed to environmental sustainability and will:

- Set annual objectives and targets to go beyond legal requirements to reduce our impact on the environmental pollution;
- Identify and manage environmental risks within our operation and implement best practice principles to prevent pollution.
- Continually improve our procedures to optimize the conservation of our resources, including energy, together with recycling or re-use of waste items; and
- Educate employees and others involved with company activities to understand our EMS, environmental aspects, and to recognize and control environmental impacts that may be associated with the Company.

We encourage all Pozztech Engineering employees to support and contribute to our Environmental Policy.

Tony Pozzato

A handwritten signature in blue ink, appearing to read 'Tony Pozzato', is positioned below the printed name.
